

Accounting & Finance Services

Your financial data at your fingertips – secure, concise and easy to read

Businesses need accurate and timely access to their financials. Analytix provides real-time access to critical financial data through a convenient and secure portal 24/7, so you can focus on your business. Unlike traditional financial reports, our documents are incredibly easy to understand and our web-based technology is compatible with popular accounting applications. Owners, executives and select individuals, such as investors, may review data safely and securely – anywhere, anytime.

Boost your confidence in the numbers

At Analytix Solutions, we eliminate the data integrity risk associated with collecting, mapping, verifying and moving critical financial information. We help you build standardized, repeatable processes and bypass typical inefficiencies in collecting financial data. These transparent processes provide you with assurance that data is clean and results are accurate.

- End-to-end financial data automation creates a standard process that eliminates variability.
- Data validations and quality checks allow us to alert you to errors at each step, generate notifications, and reconcile discrepancies.
- Robust reporting through our dashboard allows you to track revenues, cash flow, key performance indicators and operation management reports specific to your industry.

Accounting & Finance

Business Analysis Services

Business Analysis Services: Through in-depth analysis of your operational and financial data, our team of experienced consultants delivers well supported, information-backed business recommendations to help you make more informed decisions. Critical insights are revealed through trend, variance, and operational/ business analysis. Depending upon your unique needs, we offer custom reporting, including position specific management reporting, bottom-up advanced forecasting, budgeting, and what-if scenarios. This enables your business to go one step further by leveraging your existing data to minimize internal costs and maximize the potential for revenue growth.

CFO

CFO: Let our professional and experienced team of financial experts perform your CFO-level functions when required. Our CFO services can be customized to fit your needs and include budgeting and forecasting, cash flow management, key performance indicators, financial analysis and modeling, financing, and special projects.

"Analytix is our entire bookkeeping/ accounting department. In addition to fulfilling all our bookkeeping/ accounting needs, Analytix professionals provide us with sophisticated monthly financial analysis including deferred revenue that helps manage our multi-million dollar software business."

Gary Brach, CEO Agency Port

About Analytix Solutions

Businesses who are positioned for growth turn to Analytix Solutions for scalable, single source business solutions. We provide small to mid-sized businesses with a full range of accounting services, ranging from bookkeeping to CFO services, in addition to accounting systems automation and integration.

"The level of professionalism at Analytix just blew me away! Though they follow the remote working strategy, their strong emphasis on data security, willingness to listen, flexibility to quickly change and adapt was a game-changer for me. Analytix has transformed our operations by giving me a dedicated team of CPAs, CAs, and vetted financial professionals along with the best tools to help us be successful. The work stress is reduced greatly as they provide the policies, procedures, workforce management, and IT solutions. I see my relationship with Analytix continuing for many years in the future and beyond as a legacy of our business."

Mel Sams, Sams IV, CPA, PA
